

# LOCAL QUALIFIED PROFESSIONALS - February 2017

One of the options for certification of Sediment and Erosion Control Plan (SECPs) under the Central Valley Regional Board's Irrigated Lands Regulatory Program is that the **SECP is written, amended and certified by a qualified professional possessing one of the following registrations or certifications, and appropriate experience with erosion issues on irrigated agricultural lands (CA Registered Professional Civil Engineer (PE), CA Registered Professional Geologist or Engineering Geologist, CA Registered Professional Landscape Architect, Professional Hydrologist, Certified Soil Scientist (CPSS), Certified Professional in Erosion & Sediment Control (CPESC), Certified Professional in Storm Water Quality.** To assist Coalition members in identifying local qualified professionals, Dixon/Solano RCD Water Quality Coalition has begun compiling a list. This list will be updated regularly and posted to <http://www.dixonrcd.org/irrigated-lands-program/sediment-and-erosion-control>

Name	Title	Company	Mailing Address	Email	Phone
Mike Blankinship	PE	Blankinship & Associates, Inc.	1590 Drew Avenue, Suite 120 Davis, CA 95618	mike@h2osci.com	(530) 757-0941
